COMMODORE 64™ **SUPERBRAIN VCG14661**

SUPERBRAIN

Superbrain is a high-tech innovation of the computer-age. A program which tests the deductive powers of the mind, and stretches them to the limit.

In *Superbrain*, the player confronts the ultimate opponent — the computer itself, a highly evolved and intricate thinking machine, which considers its options and makes its move with alarming speed and accuracy. But the human spirit is sometimes as effective a weapon as the cold micro-chip strategy of the *Superbrain*. Outwit the system . . .if you can.

Superbrain — a program of extreme intelligence.

LOADING THE GAME PROGRAM

Turn on the COMMODORE 64 computer and the 1541 diskette drive. Insert the diskette into the disk drive and close the disk drive door. Enter the following at the keyboard:

LOAD "SUPERBRAIN", 8

The computer will reply with:

SEARCHING FOR SUPERBRAIN
LOADING

When loading is complete the computer will reply with:

READY

Now enter "RUN" and press RETURN. The program will begin.

PLAYING THE GAME

After the title appears, press any key to begin. You will receive instructions. Press another key to receive the remaining instructions, then another key to begin the game. The object of the game is to guess the color and order of 5 colored squares. The computer chooses the 5 squares. At the top of the screen is a gray box with 5 question marks. These represent the 5 squares. Under this box are 10 pairs of gray boxes. You have 10 chances to guess the order and color of the squares.

The right-hand column displays the squares as you guess them. The left-hand column will give you clues as to the accuracy of your guesses. In order to guess the color of the squares the following keys must be pressed:

1) BLACK
2) WHITE
3) RED
4) CYAN
5) PURPLE
6) GREEN
7) BLUE
8) YELLOW

If you guess the right color of a square but in the wrong place, the clue box will display a white square. If you guess the right colored square in the right place, the clue box will display a black square.

In order to change any squares you have guessed, press the F7 key to move the cursor backward, and the F1 key to move forward. After you have made your guess, press the RETURN button. If you guess all 5 squares correctly you win the game.

You have 10 chances to guess the squares in proper order. You may quit at any time by pressing the F4 key.

90 - DAY WARRANTY
ALA ENTERPRISES, INC. COMPUTER AND VIDEO PROGRAMS

ALA ENTERPRISES, INC. warrants that this Computer/Video Program shall be free from any defects in material or workmanship for a period of 90 days from the date of purchase. If a defect covered by this warranty is discovered during the 90-day warranty period, **ALA ENTERPRISES, INC.** will repair or replace the Computer/Video Program at the option of **ALA ENTERPRISES, INC.**, providing the Computer/Video Program and proof of date of purchase is mailed or delivered postage prepaid to the address of **ALA ENTERPRISES, INC.**

This warranty shall not apply if the Computer/Video Program (1) has been misused or shows signs of excessive wear, (2) has been damaged by playback equipment or while being used with any products not designated by **ALA ENTERPRISES, INC.** or, (3) if the purchaser causes or permits the Computer/Video Program to be serviced or modified by anyone other than **ALA ENTERPRISES, INC.**

If at any time after the initial 90-day period your software becomes defective, the software may be returned to **ALA ENTERPRISES, INC.** and we will replace the software for a $5 service charge and proof of purchase.

Any person/persons reproducing any portion of this program in any media, for any reason shall be guilty of Copyright Violation and shall be subject to civil liability at the discretion of the copyright holder.
